# Group Ordering

Dine In CT's Group Ordering function is great for larger pre-planned individual entree scenarios. For example an accounting firm wants to let employees order dinner for staying late during tax season. The admin starts a group order for tomorrow evening, chooses a restaurant, delivery time, cut off time, and per person spend amount. The system invites all employees selected to add their food selection. When the cut-off time is reached, the system assembles the entire order and sends it to our dispatch system. The restaurant will make a bag for each person labeled with their name. Our mobile waiter brings it to your location in thermal bags, sets it up and can provide utensil packs if requested.

The first step to group ordering is to set up an account. Call us at 860-673-3463 and we will be happy to walk you through it.

## How to Set Up Group Ordering

- You as the admin can create an account (if you do not already have one) or log in at [www.dineinct.com](http://www.dineinct.com).
- After logging in, click on the "Office Orders" tab. Here you can set up a group order to be delivered from one or two restaurants at a given time to your office. You are able to create an email list to include each of your colleagues that you would like to invite to order. You can invite "ALL" or Part of the email list to participate in any group order.
- After creating your list, click on the "Start Order" button. Choose the date and time you would like to send the invitations to order and the time of the actual delivery.
- Select the restaurant you would like to order from. Then choose the cut-off time (we notify the restaurant that they will be receiving a group order in the morning for lunch delivery - the preferred cut-off is 10AM)
- You can pay for the entire order or choose the amount each employee is able to spend. You can allow them to spend more if they put it on their own card. Gratuity can also be added at this time.
- Choose a payment method. (If you would like to pay with a business check please select CASH and let us know in the special instructions.)
- Review the order details, you can go back and make changes if necessary. When you are ready "Finalize" the order and let our system do the rest.
